EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an email interview with Belinda Lee on 12/15/06.

The application has been amended as follows:

Cancel claims 3 and 28.

The following is an examiner's statement of reasons for allowance:

The prior art teaches a process of fabrication of a substrate, a dielectric layer, a hydrophilic layer, and a hard mask, where residuals are formed on the edge of the hydrophilic layer and are removed by a polishing step. The prior art does not teach the above teachings in combination with the residuals being formed on at least one of an upper bevel of the structure, a lower bevel of the structure, a sidewall of the structure, and a combination of thereof, and where a polishing step is performed to remove the residuals on at least one of an upper bevel of the structure, a lower bevel of the structure, a sidewall of the structure, and a combination of thereof. This combination has been found to be non-obvious thus allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
